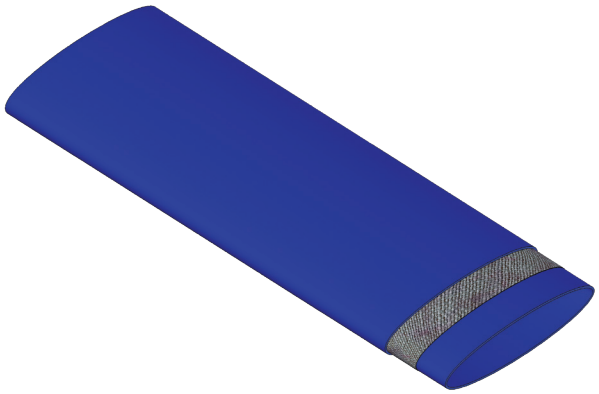
DATA SHEET

Medium Duty PVC Blue Layflat

The Right Connection®

Dixon Medium Duty PVC Blue Layflat is designed for water drainage at open pit mining and at civil engineering/dam construction sites in mountains or other areas where water must be moved to significantly higher or lower elevations. This hose has excellent abrasion resistance.



Hose Component
- Medium Duty Sunny Blue PVC Layflat

Special Features
- Abrasion resistant
- UV stabilised

Hose Construction
- **Tube** Blue PVC
- **Reinforcing** High strength textile
- **Cover** Blue PVC

Hose Length
- 100 metre coils

Working Pressure
- 70 - 150 psi

Temperature
- -20°C to 54°C
