7 GOOD REASONS WHY MOST RETAILERS PREFER TO STOCK ANCHOR

- More colours and a greater range: Anchor offers a huge array of colours over a wide mix of industry specific ranges.
- Exceptional profit and stock turns: With pricing designed with the retailer in mind, along with single unit purchase option, Anchor returns excellent profit margins and stock turns for the retail or trade stockist.
- Greater quality confidence: Spray can failures can be a real problem within the spray paint market. Anchor paints have proven to be the most reliable in over 30 countries and has just a 1 in 10,000 failure rate, a rate unmatched in the aerosol paint market.
- Professional stock presentation: Merchandising stands are available for all of the anchor ranges. These stands are lockable so as the retailer can comply with state regulations on paint aerosols.
- Environmental standards compliance: Anchor is committed to the environment and to address these issues all Anchor paints have reduced toxicity and VOC levels, and are free of lead, toluene and xylene.
- Technical specifications that ensure unmatched quality: The highest quality virgin solvents are used during the manufacturing process to ensure that all Anchor paints deliver the ultimate finish. The unique blend of solvent and propellants facilitates a fast drying time as well as paint flow, gloss level and gloss retention.
- Same day despatch: The CW Brands despatch guarantee ensures that the vast range of colours are available on your shelf to meet your customer requirements. Order before midday and we will guarantee same day despatch.

GOLD GAL ZINC PROTECTION

A fast-drying protection from corrosion with excellent long term effect for metals. In dry film, Anchor Zinc Spray contains more than 93% zinc and zinc compounds. Available in Aerosol and brush on form

- Heat resistant to 500°C
- Repairing damaged zinc layers
- Conducting intermediate layer in spot-welding
- Primary coat for installations at risk from water and weather effects
- Everywhere metal must be protected from corrosion

250ML, 500ML, 1 LITRE, 4 LITRE AND AEROSOL

SILVER GAL · PROTECTS AND MATCHES IN ONE STEP

Ideal for re-galvanising damaged areas on galvanised steel. Offer corrosion protection, fast drying, as well as an ideal colour match to newly galvanised metal. An industrial strength formula with temperature resistance up to 300°C.

BOSTON ENAMEL PAINTS

Boston spray paint is a quick drying, high gloss enamel paint for interior & exterior surfaces with many uses in home, craft & industry. It dries to a high gloss, tough, durable finish. Use with confidence on metal, wood, fiberglass & glass surfaces.

27 COLOURS INCLUDING PRIMERS

MERCHANDISING STAND AVAILABLE

- High Gloss enamel
- Quick drying
- Technically advanced formulations
- No xylene, no toluene & lead free
- Interior & exterior
- Use on doors, gates, wrought iron, toys, letterboxes, boats, glass etc.

BOSTON PROTECT · ZINC & GALVANIZING PAINT

The Boston Protect range consists of galvanizing & zinc paints designed to protect and repair damaged spots on galvanised surfaces. The cold gal has a high content of zinc to ensure complete protection from outdoor elements

Cold Gal · Silver Zinc · Black Zinc · Bright Gal

400 gm aerosol

industrial primers

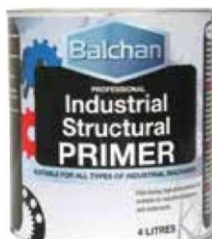

PROFESSIONAL INDUSTRIAL STRUCTURAL PRIMER

A fast drying, high solids, and high performance Enamel Primer designed as an anticorrosive zinc phosphate primer for ferrous metals. It has excellent adhesion on all ferrous substrates and timber and is a suitable preparatory coating under most topcoats. It resists the penetration of machinery oils and maintains a clean appearance. Its fast drying characteristics enables quick recoating with topcoats.

Balchan Industrial Structural Primer is ideal for use in all industries, workshops, garages and wherever protection of metal parts, machinery and timber is needed.

High Heat

HIGH HEAT ENGINE ENAMEL WITH CERAMIC™

Dupli-Color High Heat will renew and extend the life of any surface exposed to extremely high temperatures. This unique coating is a matte finish, silicone ceramic base widely used by the automotive industry on exhaust systems and in the American aerospace industry for jet engines, re-entry vehicles, the Stealth fighter, B-2 bomber and other high temperature applications. Dupli-Color High Heat will withstand temperatures up to 1093°C (2000°F) and is ideal for use on exhaust systems, engine parts or wherever an extreme temperature coating is needed.

340g cans - Case Pack: 12

- Features easy use fan spray
- Maximum heat dissipation and high gloss retention
- Ceramic resins resist heat up to 1093°C (2000°F)
- Dry to touch in 30 minutes/ handle in 1 hour
- Resistant to oil and other automotive fluids
- Will not blister, flake, crack, or peel
- For use on engine blocks and engine accessories

Curing High Heat

High Heat with Ceramic™ Coating only attains its unique properties after correct curing (refer to instructions on the can).

On the Vehicle

- Paint must be completely dry before curing
- Run at idle for 10 minutes
- Cool for 20 minutes
- Run at idle for 20 minutes
- Cool for 20 minutes
- Run under normal operating conditions for 30 minutes

Off the Vehicle

- Paint must be completely dry before curing
- Heat to 121° C for 30 minutes
- Cool for 30 minutes
- Heat to 204° C for 30 minutes
- Cool for 30 minutes
- Heat to 343° C for 30 minutes

CAUTION: Do not exceed the temperature of the least heat tolerant component or the base metal

Coating System High Heat provides a multi-high performance coating system for the ultimate protection and quality. The system includes surface preparation, primer, paint and clear coat.

Engine Enamel

ENGINE ENAMEL WITH CERAMIC™

Dupli-Color® Engine Enamel contains Ceramic™ Resins for maximum heat dissipation and gloss retention. The resins offer protection from exposure to excessive heat and automotive fluids. Excellent for under-the-hood applications, Dupli-Color® Engine Enamel will perform to the most rigorous standards of racing, street rod, and vehicle restoration enthusiasts. This durable formula resists temperatures up to 260°C / 500°F intermittently and produces a superior finish that will not blister, flake, crack or peel.

340g cans - Case Pack: 6

- Features EZ Touch® Conical Nozzle
- Maximum heat dissipation and high gloss retention
- Ceramic resins resist heat up to 260°C / 500°F
- Dry to touch in 30 minutes/ handle in 1 hour
- Resistant to oil and other automotive fluids
- Will not blister, flake, crack, or peel
- For use on engine blocks and engine accessories

Caliper

CALIPER PAINT

Customising brake calipers has never been easier. Dupli-Color® Caliper Paint is a durable, protective coating resistant to chipping, brake dust, and automotive chemicals. Formulated with ceramic resins, this high-gloss coating resists temperatures up to 260°C / 500°F. Caliper Paint is available in an aerosol can for applying to brake calipers when removed from your vehicle, and also in a brush-on kit for applying when your brake calipers are not removed from your vehicle. The Dupli-Color® Caliper Paint Kit includes: Caliper Paint Pot, Caliper Aerosol Cleaner, Stir Stick, Paint Brush, Masking Tape, and Step-by-Step Instruction Booklet.

Hot Tires™

Whether your tyres are old or new, Dupli-Color® Hot Tires™ gives you a way to add colour or personalise your muscle car, truck, or sport compact tyres. This fast-drying, durable coating allows you to touch-up faded white walls or tattoo your high performance tyres. Hot Tires™ goes on smooth, resists fading, and is available in an easy-to-use pen.

Shadow

Dupli-Color® Shadow® Chrome Black-Out Coating is a two-can system that creates the popular look of black chrome on polished metal or chrome surfaces for cars, trucks and motorcycles. The system includes a translucent, black base coat that casts a dark shadow effect. The clear top coat is for added gloss, depth, and protection from the elements. Shadow® is resistant to brake dust, road abrasion, chipping, and fading, making it ideal for chrome wheels, bumpers, interior/exterior trim, accessories, and underhood components.

- Durable high-gloss finish
- Black tinted effect over chrome
- Creates a custom black chrome appearance
- Ideal for wheels, trim, and accessories

BED ARMOR™ AEROSOL

Dupli-Color® Bed Armor™ Do-It-Yourself Truck Bed Liner is now available in aerosol. Just like the Bed Armor™ Truck Bed Kit, it's easy to use and offers the same durability and protection. Bed Armor™ aerosol is a water-based polyurethane formulated with ground up rubber particles to provide uniform texture and skid resistance. Bed Armor™ aerosol is perfect for cutting in or for touch-up and can be used on wood, concrete, fibreglass and metal.
