Anchor Shield metal protection is a premium metal protection top coat with excellent adhesion and rust preventative properties.

Anchor Shield can be applied directly onto steel without a primer and gives excellent resistance to rust and corrosive elements. Ideal for industrial, marine, mining and automotive market sectors.

Available in Aerosol and brush on from

# ANCHOR SHIELD

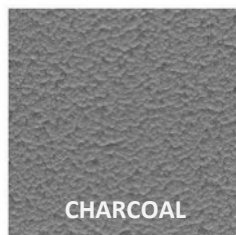

## HAMMER FINISH

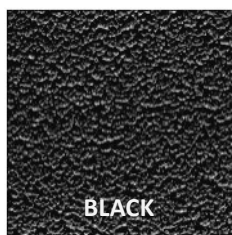

Anchor Shield Hammer Finish is a durable, protective finish that can be applied to a wide range of metal and pre-painted substrates. Anchor Shield Hammer Finish is ideal for restoring metal surfaces and hiding surface imperfections such as scratches and joints. When sprayed produces a uniform and attractive hammer pattern with good slip resistance. Available in Aerosol, 1 litre, 4 litre and 20 litre.

Premium Metal Protection

**93%** High zinc content  
**98.5%** Zinc purity

## COLD GAL ZINC PROTECTION

A fast-drying protection from corrosion with excellent long term effect for metals. In dry film, Anchor Zinc Spray contains more than 93% zinc and zinc compounds. Available in Aerosol and brush on form

- Heat resistant to 500°C
- Repairing damaged zinc layers
- Conducting intermediate layer in spot-welding
- Primary coat for installations at risk from water and weather effects
- Everywhere metal must be protected from corrosion

250ML, 500ML, 1 LITRE, 4 LITRE AND AEROSOL

## SILVER GAL · PROTECTS AND MATCHES IN ONE STEP

Ideal for re-galvanising damaged areas on galvanised steel. Offer corrosion protection, fast drying, as well as an ideal colour match to newly galvanised metal. An industrial strength formula with temperature resistance up to 300°C.

Available in Aerosol 1 Litre and 4 Litre
