## Bondhus Professional Quality Tools Provide Superior Value

Time is money, and the real cost of using an inferior tool is realized when something goes wrong. As anyone who works with mechanical devices knows, bad things occasionally happen. Stripped screw heads are one of those bad things that can happen. A screw with a stripped head can no longer be removed with a screwdriver. If it is in a difficult to reach location, where a clamping device cannot grip it, the task becomes particularly difficult.

The cost of a high quality screwdriver is negligible compared to the cost of removing a stripped screw. Will it take a few hours? What is the real cost of an inexpensive, poor performing screwdriver?

Bondhus quality screwdrivers are made from the finest steels and plastics in our German manufacturing plant, where screwdrivers have been produced for more than 50 years. The purpose of a high quality screwdriver is to provide a faster, easier, less costly means of performing a task. Bondhus strives to provide not just "good" tools, but the strongest tools available anywhere. Customer satisfaction is what we strive for every day.

Bondhus manufactures the highest quality screwdrivers available, and every tool is backed by an unconditional lifetime warranty.

**"All Bondhus products are guaranteed for life. If you are not satisfied with a Bondhus tool for any reason simply return it. A replacement will be shipped right out at no cost, no hassles, no questions asked."**

A warranty is only as good as the company standing behind it. Bondhus has been the leading innovator in the hand tool industry for over 50 years.

## Series 2000 ComfortGrip™ Screwdrivers Phillips

Chrome-vanadium-molybdenum blades for hardness and high torque applications  
 Chrome-plated for corrosion resistance  
 Precision tip fits screw head exactly

**Precision Tips**  
For exact fitment

Anti-roll design

**Printed Blade Tip Symbol**  
For easy selection

**Cross hole**  
Can be used as a lever for higher torque turning

Discount Group: Z1502
