CREAM POLISH

Gilly Stephenson's Cream Polish is made with the finest West Australian beeswax to an old English recipe. The purity of the polish may be judged by the ease with which the cloths wash out. The Cream Polish is emulsified, making it easy to apply, whilst giving the furniture the goodness it requires. As Gilly Stephenson's Cream Polish is rich in wax, a little goes a long way. The Cream Polish is recommended for general maintenance and the best polish for French polished furniture. Cream Polish comes scented in Lavender, Rose and Lemon. The polish is also suitable for use on vinyl, leather and marble.

CABINET MAKERS WAX

Cabinet Maker's Wax is a traditional type of beeswax polish with the addition of carnauba wax. It gives an added sheen and harder finish and is excellent for filling small holes, defects and hairline cracks. Cabinet Maker's Wax is marvellous on oak, jarrah and other woods that have no specific finish. Used over the Restoring and New Timber Polish, Cabinet Maker's Wax produces a marvellous natural finish. In this case it is best applied with 0000 Steel Wool.

CARNAUBA POLISH

Carnauba Polish is high sheen finishing polish, excellent for tabletops and other surfaces prone to 'fingering'. Made with beeswax and a high proportion of carnauba wax, it is very good on modern finishes. Carnauba Polish brings up a lovely finish on marble, tortoiseshell and is good for preventing tarnish of metal. Carnauba Polish is excellent for decoupage and chalk paint finishes.

CARNAUBA WAX FLAKES

Carnauba wax is a hard wax and can produce a beautiful gloss like finish. Hence it is used in the manufacture of furniture polishes, car waxes, food, candy/sweets, pharmaceuticals and more. It is the hardest natural timber finish you can provide. You can mix it with your own oils, solvents and waxes to make your own finishes. Popular among woodworkers. Known as 'The Queen of Waxes', Carnauba Wax is a must have addition for your DIY experiments. It comes in flake form which makes working with it all the more easier.

RESTORING POLISH

This polish is designed as a starter polish for new work or furniture that has just been stripped back. Restoring Polish will bring out the natural grain of the wood, feed the timber and give a good initial sheen. Restoring & New Timber Polish is excellent for restoring moisture to furniture that has become dry or faded and is effective on leather.

SCRATCH COVER

Scratch Cover for Furniture & Floors is ideal for colouring over scratches and is also useful for reviving timber that isn't in bad enough condition to merit stripping back. May also be used as a stain on raw timber to darken it.

FOODSAFE WAX

A rich, soft wax perfect for a natural finish on a variety of raw timber/bamboo surfaces, including children's furniture, chopping boards and food serving utensils. Made using a blend of beeswax, soy wax and carnauba wax flakes, this preparation is easy to apply and penetrates deeply into the fibres to nourish and protect. Imparts a matte sheen.

ORANGE OIL & LEMON OIL

Excellent for those who prefer to oil their furniture rather than wax it. Orange Oil has great cleaning properties and is marvellous for old neglected furniture as it both cleans and restores. It is also a simple way of keeping cane and bamboo furniture in good condition and for feeding unpolished surfaces, such as drawers and undersides of tables. It gives a golden hue to pine. Apply with a soft cloth and then buff. Orange Oil is completely plant based and food safe, contains no silicon and smells wonderful.

LEATHER CARE

The ideal way to care for your leather goods from furniture to saddlery and bags to shoes. Containing beeswax and citrus oil it is easy to use and nourishes the leather leaving it supple and therefore more resistant to dirt and staining. This non-toxic product is also good on vinyl and is water resistant and non-staining. Wonderful wax on pigmented and protected leathers. Use sparingly as very rich in waxes. Not suitable for natural leathers such as aniline and semi-aniline.
