CUSTOMISED security solution
programs designed with **END**
USER'S NEEDS in mind.

**Master
Lock** **TOUGH
UNDER
FIRE** 

Master Lock offers a wide range of specifically designed, high quality security padlocks allowing end users the ability to develop customised security solutions for specific applications.

The Master Lock industrial/commercial product offer includes: Lock customisation, weather tough, high security, hidden shackle, coloured locks, laminated steel, hasps and staples, custom keyed, special application locks, combination locks, Bluetooth locks, cables, chains and key storage.

WHO IS THE MASTER LOCK INDUSTRIAL/COMMERCIAL PROGRAM FOR?

The Master Lock Industrial/Commercial Program is specifically designed with the high volume commercial end user's needs in mind. The Master Lock Industrial/Commercial Program offers security solutions that can be customised for end user specific applications. The products offered allow you to choose the best width, material, shackle diameter and length along with the right design for your application and fast delivery for your job.

Multiple keying options and custom marking programs add value to the "Built-To-Order" program.

SECURITY ENHANCEMENTS

Edge™ Restricted Key Control System

Enhance the security of your facility with the exclusive Edge™ Restricted Key Control System. The patented Edge™ system makes key-controlled security a cost-effective possibility for virtually any facility and application.

Keys are completely restricted and are available only via Master Lock, making unauthorised duplication impossible.

BlockGuard® Anti-Shim Technology

Continuing to lead the market with innovative security solutions, Master Lock now offers the patent-pending BlockGuard® Anti-Shim Technology.

These enhanced combination locks deter shimming, a method of compromising a lock by inserting a shim tool into its latch mechanism. Master Lock exclusive BlockGuard™ Anti-Shim Technology is now available on combination padlock models 1500(boxed), 1502 and 1525 with supervisory key control.

OPTION YOUR MASTER LOCK SECURITY SYSTEM

For Best Performance & Long Life

OWNERSHIP IDENTIFICATION

Prevent theft and wasted time searching for the right key or the assigned employee. You can permanently identify ownership and access rights on the padlocks themselves. Master Lock will custom engrave text and logos to meet your needs.

SPECIFICATIONS

All sizes quoted in the list are nominal metric sizing for imperial measurements. For accurate & detailed imperial sizes of products please contact your Mayo Hardware representative.

KEY CHARTING

Master Lock maintains key record information for registered commercial lock systems so you can be assured that there are no unwanted key duplications with locks that you purchase over time. Request this special service at no charge when placing your order. ^Δ

KEYING

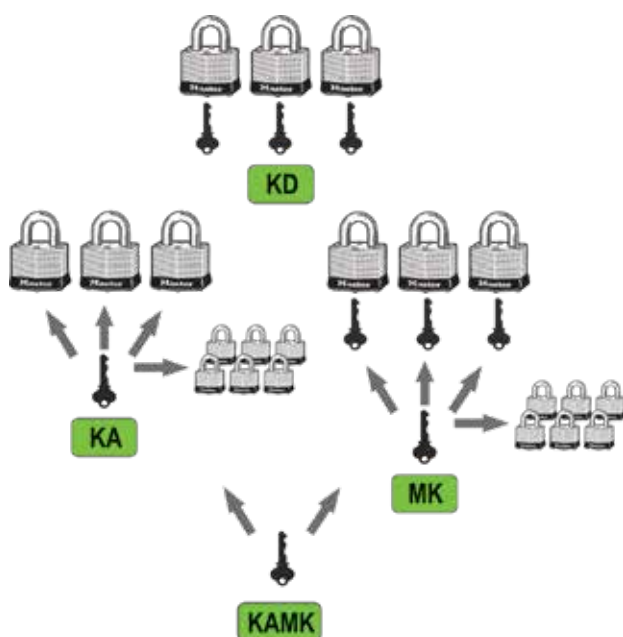

Master Lock products, in most cases, are available in keyed alike & master keyed formats either ex-stock or built to your exclusive order requirements in our keying cell. For details on all options please contact your Mayo Hardware representative.

^Δ Conditions apply

KEYING OPTIONS

BASIC STANDARD KEYING OPTIONS

Note: KEYED TO DIFFER is the standard keying on all locks.

Lifetime Warranty

- **KEYED TO DIFFER (KD)** – Each lock is opened by its own unique key that does not open any other lock in the set. Keyed to differ is the standard keying on Master Lock padlocks.
- **KEYED ALIKE (KA)** – This option provides "same key" convenience and eliminates the need for multiple keys where numerous padlocks are used. All padlocks in the set are opened by the same key.
- **MASTER KEYED (MK)** – In a Master Keyed System, a master key opens all the locks in the system although each lock has its own unique key. This permits overriding master key systems along departmental or other functional lines, to allow supervisory access.

More options on keying and system integration are available. Please contact your Mayo Hardware representative for full details.

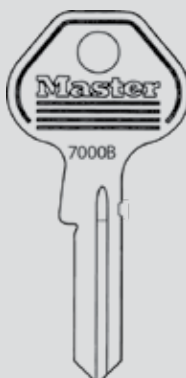

KEY PROFILE & CYLINDER OPTIONS FOR MASTER LOCK PRO SERIES

**27B
W27**

W27 Profile – 5 pin keyway is the standard Cylinder inclusion in the Pro Series Padlock range. Key blanks are available.

**7000BB
W7000B**

W7000 offers 6 pin key security with over 260,000 key changes. Offers strong pick resistance and increased code availability.

**KWP6
WP6**

WP6 Edge Restricted Cylinder makes unauthorised key duplication impossible.

Pro Series® Rekeyable Padlocks For Use With Master Lock Profiles

Pro Series® with Master Lock profiles and various shackle sizes offer a large range to solve your security needs.

- Hardened boron alloy shackles for superior cut resistance.
- Dual ball bearing locking mechanism resists pulling and prying.
- High security cylinder.
 - 5-pin and 6-pin cylinders provide tens of thousands of key changes.
 - Spool pins are virtually impossible to pick.
- Rekeyable – replaceable cylinder and shackle.

6100 SERIES - HIGH SECURITY WEATHER TOUGH® PADLOCKS

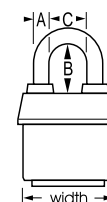

6121

6127

- Ideal for harsh outdoor conditions.
- Exclusive cover protects lock from water, ice, dirt and grime.
- Heavy duty steel bodies withstand physical attacks.
- Keyway cover keeps out dust and dirt.
- Coloured covers available via special order on 6121.
- Lifetime warranty.

TIP

Edge™ KEY CONTROL

Padlocks are an important, effective and often overlooked cornerstone of security. Edge™ Control System gives companies confidence and control over the integrity of their padlock security network.

- Control and eliminate unauthorised key duplication.
- Keys available only from Master Lock
 - copies cannot be made at stores.
- Implement a single keying system across all padlock security applications.

BUILD YOUR MASTER LOCK EDGE™ PADLOCK

1. SELECT BASE MODEL

2. SELECT KEYING FORMAT

KD = Keyed Differ (Standard)

KA = Keyed Alike

MK = Master Keyed‡

KAMK = Keyed Alike Master Keyed‡

3. SELECT NO. OF KEYS REQUIRED PER LOCK

NK = 0 keys per lock

1K = 1 key per lock

2K = 2 keys per lock

Example:

1. Base Model: 6121LFWP6

2. Keying: KD

3. No Of Keys: 1K

Finished Product Code: 6121LFWP6KD1K

‡ Note: Extra cost per Master Keyed Padlock

UNIVERSAL PIN (CRUNCHER) LOCKS – BOX PACK

Master Lock's range of Universal Pin (Cruncher) Locks, allows you to add extra locks to your existing key profile 1K padlock system in a matter of minutes! Minimise your customers' keys and maximise your padlock sales with this innovative solution from Master Lock.

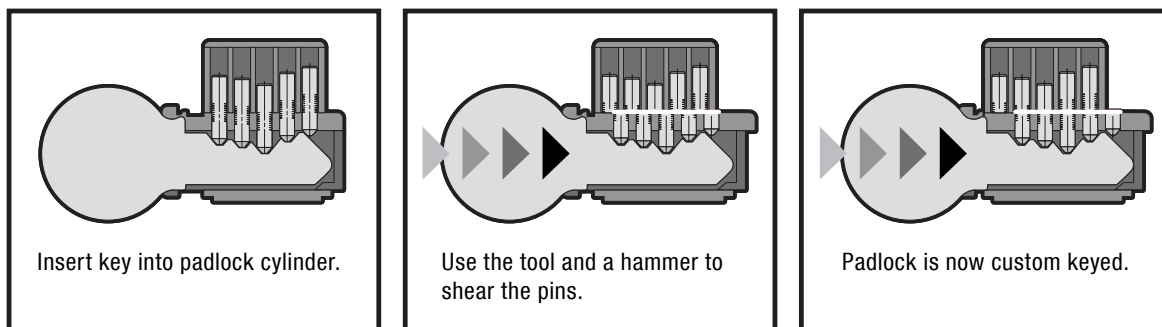

Punch tool to set the cylinder of an uncoded "UP" padlock with the tap of a hammer.

KEYING INSTRUCTIONS:

1. Choose original Master Lock padlock key to be used and remove from ring.
2. Insert and remove key into Master Lock "UP" series padlock several times.
3. Insert key into Master "UP" series lock and invert padlock through the jaws of your bench vise. Do not tighten vise.
4. Place No. 0376 Keying Tool over key and tap with hammer until cylinder pins shear.
5. Remove padlock from vise and check for proper operation, turning key in lock several times.

WHEN USING ANY TYPE OF STRIKING TOOL, WEAR SAFETY GLASSES!
