

C11 GEAR OIL PUMP

LEVER ACTION (C11-01)

**10 Year
Warranty**

*conditions apply

PRODUCT OVERVIEW

The C11 is the best choice when dedicated service oils (engine, gear, transmission, hydraulic, etc..) need to be dispensed manually direct from drums into the vehicles or equipment.

Designed to handle from the heaviest (up to SAE140 viscosity) down to the lightest and from the 60L and other variations up to the 205L drums sizes the sliding bung adaptor on this pump is adaptable to meet the demands.

Using a high viscosity setting on the lever handle to overcome the resistance of the heavier oils and the optional in-line mesh filter (CF) all options are covered.

Delivery is a maximum of 75mls per stroke through the 1.8m delivery hose and non-drip nozzle.

FEATURES & BENEFITS

1.8m Delivery Hose & Nozzle
Easy to reach difficult applications

Lever Action Pump
Delivers up to 75ml per stroke

2" Sliding Bung Adaptor
To suit different height drums

Manual Non-Drip Nozzle
To prevent fluid spillage

Telescopic Suction Tube
Adaptable to suit
60L - 205L drums

Fully Repairable
Provides a much longer service life

TECHNICAL SPECIFICATIONS

Compatible with 60L - 205L drums

Delivers up to 75ml per stroke

1.8m hose with non-drip nozzle

Suitable for use with engine oil, gear oils up to SAE140,
automatic transmission & hydraulic fluid

Wetted parts: Aluminium, steel, brass, Nitrile rubber & Teflon

OPTIONAL ACCESSORIES

PACKAGE INCLUDES

C11 pump

1.8m delivery hose & nozzle

Sliding 2" bung adaptor
