

# HP LITRESTROKE

## LEVER ACTION FUEL PUMP (HP-01)

**10 Year  
Warranty**

\*conditions apply

### PRODUCT OVERVIEW

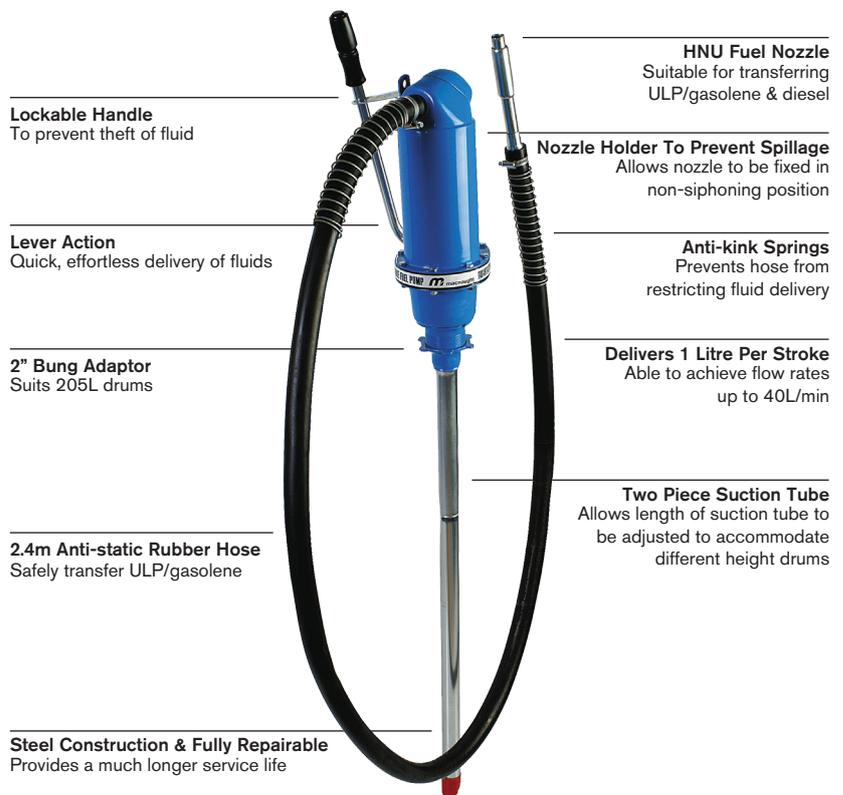

The LITRESTROKE™ is a hand operated, lever action piston pump for dispensing diesel, kerosene, ULP and light oils (up to SAE30) from 60L - 205L drums or tanks.

The LITRESTROKE™ delivers 1L per stroke and is able to achieve flow rates of up to 40L/min which makes it suitable for most common fuel transfer applications.

Includes 2.4m anti-static hose, ULP/diesel nozzle and an in-built nozzle holder to prevent spillage.

The LITRESTROKE™ is also suitable for users who either cannot use an electric fuel pump for safety reasons or do not have access to power in remote locations.

### FEATURES & BENEFITS

### TECHNICAL SPECIFICATIONS

Suitable for 205L drums
Delivers 1L per stroke (Up to 40L/min)
2.4m anti-static delivery hose
2" bung adaptor
Two piece suction tube
Suitable for use with petrol, diesel, kerosene and lubricating oils (up to SAE 30)
Wetted components: Steel, acetal, zinc, nylon & nitrile

### OPTIONAL ACCESSORIES

### PACKAGE INCLUDES

HP LITRESTROKE™ pump
2.4m anti-static delivery hose
HNU Fuel Nozzle
2 piece suction tube
Built-in 2" bung adaptor
