

20L Oil Pump Premium

L-DP20P

The 20L Oil Transfer Pump is designed for dispensing most service fluids including engine, gear, transmission, hydraulic and some engine coolants from 20L - 25L drums. An extendable suction tube and one additional bung adaptor ensures that the expanding range of different size and types of drums are easily catered for. Delivery on the down-stroke makes this pump easy to use especially when the drum is low on fluid. An extra-long clear delivery hose gives easy identification of the fluid type and allows better reach into difficult areas.

D shaped handle

Ergonomic grip for easy operation

Self Priming Pump

Delivery on the down stroke for easy operation

1.2m Spring braided hose

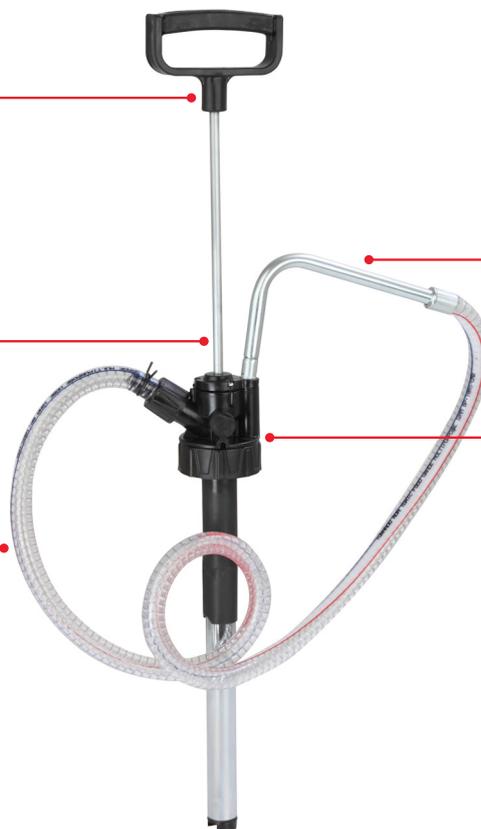

Durable and prevents kinks to provide continuous flow

Non drip nozzle

Prevents contamination and fluid wastage

Drainback nozzle holder

Prevents spillage and captures fluid overflow

TECHNICAL SPECIFICATIONS

- Delivery up to 65ml per stroke
- Bung adaptors to suit a wide range of 20L drum types
- Tube extender to suit different height 20-25L drums
- Wetted components: Steel, aluminum, polyethylene, polypropylene co polymer, Viton®, PVC and acetal

RECOMMENDED USE WITH

- Engine oils, gear oils up to SAE140 viscosity, glycerine, ATF's and RTU engine coolants (not concentrates)

INCLUDED IN THIS PACK

- 20L oil pump with tube extender, 1.2m delivery hose, 1 additional bung adaptor and instruction manual
