

2" Drum Faucet with Sight Glass

L-DTP2

Polyethylene construction. Fits into 2" threaded opening on 205L (55 gal.) drums. Aids easy and convenient dispensing of fluids under gravity flow with the drum laid horizontally. Built-in port for mounting sight glass to check fluid level in the drum.

Padlock provision

Lockable valve to prevent theft of fluids

Sight glass port

Included sight glass used to show level of fluid

Outlet port

Fits into most 205L drums available in market

Bucket hanger

Minimise wastage by using bucket as drip tray

Sight glass shows level of oil left in the drum
