

## CO<sub>2</sub> GAS HEATER WELDING AND BEVERAGE

The Bossweld type 30 Inlet and Outlet gas heater can be attached directly between the cylinder and the regulator, this warms the gas prior to entering the regulator. This ensures a high flow of gas without freezing.

### SPECIFICATIONS

Body Construction:	Brass / Chrome plated
Gas Service:	Inert Gas
Working Pressure:	20,000 kPa
Operating Temperature:	-20°C - 50°C
Thermostate:	65°C (shut off over temp)
Flow Rate:	10 m <sup>3</sup> /h CO <sub>2</sub> @ 15°C
Capacity:	100 watt
Input Power:	240 Volt single phase
	10 Amp Plug
Warranty:	6 months

Part Number	Description
400230	Bossweld Inline CO <sub>2</sub> Heater 240V

Made in China

## CO<sub>2</sub> GAS SPIGOT HEATER

Bossweld CO<sub>2</sub> gas heater is designed to prevent CO<sub>2</sub> regulator freezing up. Clamps onto stem of CO<sub>2</sub> regulator for warming of CO<sub>2</sub> gas

### FEATURES

- 240 volts
- Easy to install between CO<sub>2</sub> Cylinder and regulator
- Prevents freezing
- Clamps on with grub screw

### SPECIFICATIONS

Body Construction:	Aluminium Alloy
Tube Construction:	Stainless Steel
Gas Service:	Inert Gas
Max Haet:	180°C
Flow Rate:	10 m <sup>3</sup> /h CO <sub>2</sub> @ 15°C
Power Consumption:	45 watt
Input Power:	240 Volt single phase
	10 Amp Plug
Warranty:	6 months

Part Number	Description
400218	Bossweld CO <sub>2</sub> Spigot Heater 240V

Made in China
