THERM SMART

This is the art of achieving outstanding thermal protection.

PROPRIETARY TECHNOLOGY

HPT™ - Superior Grip and Dexterity

The Hydropellent Technology (HPT™) is a unique proprietary coating that repels liquid and provides excellent grip in wet, dry and oily conditions. The HPT™ offers secure handling gloves that are lightweight, have superior grip and dexterity, whilst being supremely comfortable. Further, this unique coating has “encapsulated air pockets” which absorb and mitigate the effects of light vibrations.
