CRC BIO DEGREASER

I. Product Description

CRC BIO Degreaser is an industrial strength water-based cleaner and degreaser with the powerful performance of a solvent-based product. It effectively removes heavy deposits of grease, oil and dirt, yet is biodegradable and non-abrasive. It is pH Neutral and therefore safe to use on metals, painted surfaces and glass. Water Based Degreaser contains no solvent content and is therefore safe to use in confined spaces. The formulation is powered by a surfactant blend which creates dynamic surface tension modifications at the substrate/soil interface and lifts heavy contamination from the surface.

II. Features & Benefits

- **Water-based**
- **Contains a flash rust inhibitor** which will prevent rusting during cleaning.
- **Industrial strength** – Dissolves heavy deposits of oil, dirt and grease fast
- **Concentrated** – Dilutable depending on application
- **Biodegradable** – Environmentally friendly (Readily biodegradable per OECD 301B)
- **Neutral Ph** – Not Corrosive towards human tissue or metals
- **Self-Splitting Formula** – Allows soil separation for disposal of contaminants.
- **Safe on most materials**

III. Applications

Water based degreaser is effective for the cleaning and degreasing of Engine parts, Marine Engines and Bilges, Engineering equipment and plant, Workshop floors, Bitumen coated tools. Water based degreaser is suitable for cleaning applications normally requiring the use of strong solvents.

IV. Application and Directions

1. Soak, pre-wash or apply directly to pre-tested surface.
2. Allow CRC BIO Degreaser to penetrate the soil.
3. Wipe or rinse clean with water or a damp sponge.
4. For heavily soiled items: Remove excess debris using a scraper or wire brush prior to applying product.

Dilution:

- Full strength: Very Heavy grease, oil, sludge, grime, tyre marks, tools
- 10:1 General Degreasing for relatively heavy soiling
- 20:1 Hard Surface Cleaning to remove hand prints and light grease.

Bio Degreaser does not contain ammonia and will not contribute to the concentration of any prohibited substance listed in a Consent to Discharge Industrial Trade Waste Water.

V. *Typical Properties and Characteristics*

Appearance	Colourless slightly opaque liquid
Odour	Mild – unfragranced
Boiling Point	> 100 °C
Solubility	Miscible in water
pH	7.5 – 8.0
Specific Gravity	1.07
Flammability	Non-flammable

VI. *Package Description*

Part Number	Size
5067	750ml
5071	5ltr
5072	20ltr
5110	205ltr
5111	1000ltr

VII. *Precautions*

General:

Dispose of empty containers safely. All unused product should be disposed of in conformance with local regulations, do not contaminate water supply.

First Aid:

Swallowed – Do not induce vomiting. Give water to rinse out mouth, then provide liquid slowly and as much as casualty can comfortably drink. Seek medical advice.

Skin – Immediately remove all contaminated clothing, including footwear. Flush skin and hair with running water (and soap if available). Seek medical attention in event of irritation.

Eyes – Wash out immediately with fresh running water. Ensure complete irrigation of the eye by keeping eyelids apart and away from eye and moving the eyelids by occasionally lifting the upper and lower lids. Seek medical attention without delay; if pain persists or recurs seek medical attention.

Inhaled – Remove from contaminated area. Lay patient down. Keep warm and rested.
