

Non-Skid Flooring Aggregates

Aggregates for Epirez® Anti-Slip Flooring

Description

Non-Skid Flooring Aggregates are inert granules and sands that are used with the **Supatuff** range of products for anti-skid protection. These anti-skid coatings are excellent for ramps, loading docks, walkways, stairs, where non-skid finish is desired.

How to use

Prepare the surface as described in the relevant **Supatuff** technical data sheet. Mix the **Supatuff** according to the directions. Spread it uniformly with a brush, roller or airless spray. Sprinkle the aggregate over the surface. Brush away excess granules the following day after the **Supatuff** has cured. Apply a second coat of **Supatuff**, once the first coat has set, to produce a stronger smooth finish.

AGGREGATE	PARTICLE SIZE RANGE
Epoxy Anti-Slip Flooring Aggregate (Sil-Carb)	1.0 mm to 1.1 mm
Patching & Flooring Mortar Aggregate (QA2)	0.2 mm to 0.3 mm
Epoxy Mortar Aggregate Extender (QA3)	0.2 mm to 0.5 mm

Storage and Shelf life

Store in dry conditions.

Packaging

Epoxy Anti-Slip Flooring Aggregate (Sil-Carb) is available in 5 kg packs

Patching & Flooring Mortar Aggregate (QA2) is available in 4 litre and 16 litre packs

Epoxy Mortar Aggregate Extender (QA3) is available in 16 litre packs
