

14514 Heavy Duty 3 Jaw Grease Gun Coupler

September 2019

The Alemlube 14514 heavy duty, 3 jaw grease gun coupler is an industrial quality grease coupler for use with standard hydraulic grease nipples.

With a working pressure of up to 12,000psi (827bar) the 14514 grease gun coupler has three hardened steel jaws that are designed for longevity under high pressure. The 3 jaw grease gun coupler works with all grease gun types including manual, pneumatic and battery powered grease guns.

At 39.5mm long and 15mm wide the 14514 Heavy Duty 3 jaw grease gun coupler can access those hard to reach lube points.

SPECIFICATIONS, FEATURES AND BENEFITS

- Industrial quality 3 jaw coupler for standard hydraulic grease nipples
- Working pressure up to 12,000 psi (827bar)
- 1/8" BSPF thread
- Works on all metric (DIN) and SAE specification hydraulic grease nipples
- Three hardened steel jaws for resilience
- Works with all grease gun types: manual, pneumatic and battery powered grease guns
- Compact design enables access to difficult to reach lube points
- Ensures a long service life
- Easy to use just snap on and twist to pull off
- Zinc black chromate plating provides rust protection
- Manufactured in Germany
