

F20041

 1" Slump Gun Nozzle

September 2020

**The Alemlube F20041 1" slump gun nozzle is a heavy duty manual nozzle designed and manufactured with an aluminium body, steel handle & trigger and a 55mm long spout.**

Widely carried on board concrete trucks and on concrete agitator bodies where the cement needs to be washed or mixed with water, for washdown operations and other applications.

The F20041 1" slump gun nozzle is robust with an easy action, incorporates a 1" BSP(f) inlet and is fully serviceable.
