

FRAS CABLE MATE FOR MINING & PETROLEUM

The new FRAS Cable-Mate is a high temperature and heavy-duty version of our standard Cable-Mate Magnetic Lead Holder.

The MSA FRAS Cable-Mate features a high-strength rare earth magnet which will hold to any magnetic steel surface. Simply attach the magnet to the magnetic surface and direct your cables and leads through the yellow strap.

Complies with FRAS (Fire Resistant Anti-Static) requirements for mines and confined spaces.

Suitable for high temperature and heavy-duty applications.

Highly visible safety yellow strap with reflective sticker.

Part #	MSAFRCM10
Supports:	6+ cables
Support Weight:	25kg (±5%)
Dimensions:	100mm W x 220mm H
