

FOR THE ULTIMATE FINISH

You Can Feel the Difference. You Can See the Results.

Our advanced coating technique utilizes a premium performance grain on a totally waterproof, curl-resistant backing to allow a consistent scratch pattern, whether used wet or dry, and a fast cut. This process also makes the waterproof sheet incredibly flexible so it will not crack when folded and, therefore, eliminates the chance of wild scratches. The Norton BlackIce result is a smooth sanding paper that gives the ultimate finish..

QUALITY that PAYS™

DUNK AND GO!

The new Norton Black Ice design works great wet or dry and gives the same cut no matter how you use it. If you prefer the paper to be wet, just a spritz of water is all that's needed. Or, if you like to soak your paper, go ahead because Norton Black Ice has curl resistance built right in so it stays flat and Black Ice will not deteriorate, no matter how long you leave it in water.

CONSISTENT CUT

Technologically advanced grains that are precisely sized, graded and applied allow Norton Black Ice to provide a super-fast cut and a consistent scratch pattern that's easy to buff out. Removing imperfections is a breeze and knowing there are no wild scratches is a relief. Plus, enhanced flexing ensures that the paper won't crack or leave wild scratches, even when it's folded over. You can be confident in the performance of Black Ice.

GREAT FINISH THAT BUFFS OUT FAST

Advanced coating technology provides a very consistent sanding surface so what you get is a very consistent cut. The bottom line is that buffing is done in no time, as there are no wild scratches to re-work. Norton Black Ice gets the job done right the first time and in record time, too!

FEATURES & BENEFITS

- Specially treated waterproof paper is curl resistant and will not deteriorate; no soaking required
- Premium abrasive grain provides fast cut and long life while the ultra flexible backing resists cracking, tearing, and wrinkles
- Advanced coating process provides a consistent scratch pattern which buffs out faster

TAKE NORTON FOR A TEST DRIVE!

Norton is 100% committed to bringing the best performing products to body shops at a fair price. You can test drive Norton products in your shop when it's convenient for you. Simply let your Norton salesperson know when you'd like to test Norton in your shop. Our test drive program allows the technicians to do their regular work, without interruption, using Norton products at no cost in "real world" conditions.

You're the final judge of performance. At the end of the day, the Norton salesperson will review the results, provide you with potential cost savings and convert the shop to Norton products if you like what you see. There has never been a better time to look at ways to increase productivity and to reduce costs at absolutely no risk to you. **Call 1 888 295-5148 to set up a Test Drive today.**
