BMP®41 Label Printer

Jobsite durable, and dependable every day

▶ Want added durability in an industrial design?

Get the BMP®41 Label Printer. Reliable for your most detailed work and rugged enough to use every day, it's a must-have for datacom and electrical professionals. Create and print labels on-the-spot with its QWERTY keypad, or in batches at the office with Brady Workstation software. This printer can help you power through work faster, too, with its programmed pre-set label options for wire marking, flagging and patch panel ID. The BMP41 is ready for it all, every day. It's that dependable.

- ▶ **Speed** - Prints 33mm per second at 300 dpi

- ▶ **Durability** - Features rubber grips, a long-life rechargeable NiMH battery and withstands 1.2m drops

- ▶ **Flexibility** - Prints labels up to 25.4mm wide (continuous and pre-sized) from a cartridge

- ▶ **Convenience** - Window on printer lets you view 100+ different installed cartridges

BRADY
