

Soft Comfi Style

KNEE PADS

Sterling introduces the new ultra comfortable Knee Pads. The combination of elastic straps with velcro fasteners allows for a rapid fit for all, while the foam core gives maximum cushioning plus the benefit of perforated neoprene lining that works to keep all moisture away. An anti-compression comfort pad along with the super-thick 1/2" high density, closed-cell foam provides all day comfort. The non-marking design prevents marks on finished surfaces.

One size fits all
